Agenda 2030

- 17 goals
- 169 targets
- 231 indicators

- UNGA RESOLUTION

Why cities?

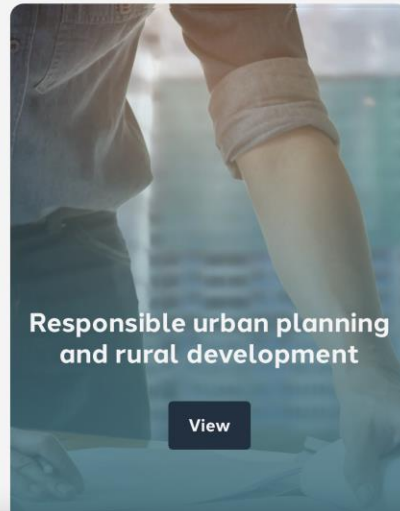

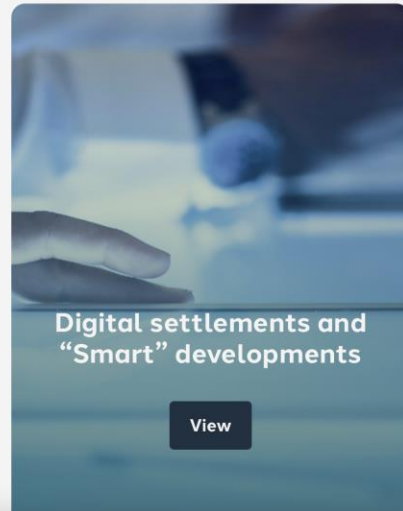

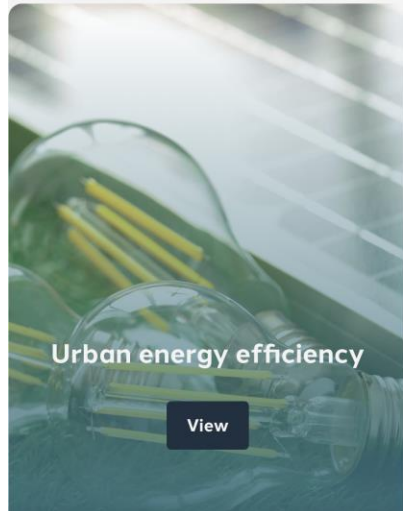

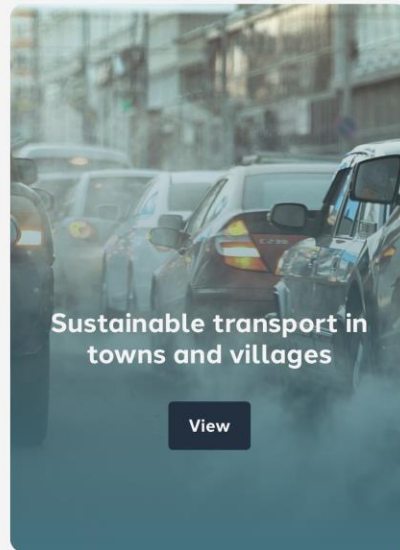

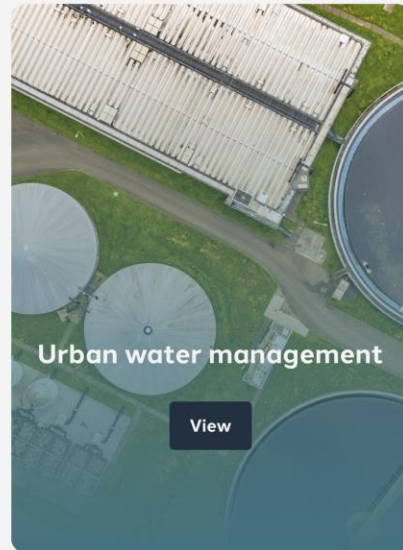

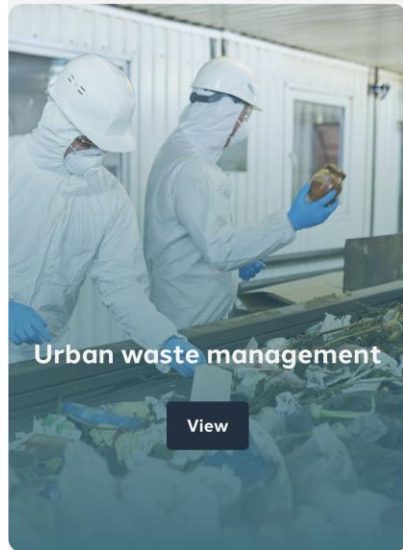

About us

The Centre of Sustainable Communities is a consultancy founded by professionals to help municipalities globally to provide the resources and solutions needed for a sustainable transition.

Recommended services

Our aim is to work with municipalities to help our clients across the full spectrum of municipal development processes, thanks to the comprehensive nature of the services we provide.

From the first step of strategic thinking to implementation and follow-up, our company offers solutions in a coherent system.

- Identifying the target area to be developed
- Developing a specific package of proposals
- Optimising development processes
- Assisting in the implementation of projects
- Providing strategic guidance
- Project funding
- Monitoring and follow-up

Thank you for your attention!
